

We Bridge Ideas to Solutions™

AEM (American Electronic Materials) is a leading developer and manufacturer of SMD components for circuit protection applications offering high performance, reliable and cost-effective chip fuse components. AEM's A&D division provides advanced, high-reliability fuses, ferrite chip beads, and tin whisker mitigation products for satellite, defense, and aerospace applications. [aemcomponents.com](http://aemcomponents.com)

Sense, Regulate and Drive with HALL EFFECT SENSORS, CURRENT SENSORS, POWER MANAGEMENT, BLDC Motor Drivers for Industrial & HEV/EV Automotive. XtremeSense TMR technology to provide superior magnetic sensing performance for use in many applications and enables high magnetic sensitivity, stable performance over temperature, low noise and low power consumption. [www.allegromicro.com](http://www.allegromicro.com)

SWITCHES, VIDEO / RF PRODUCTS, FLASH MEMORY CONNECTORSTACT, Power, Push, Slide and Rotary Switches. Potentiometers and Rotary Encoders. RF TV tuners. CF/SD/MMC/Memory Card Connectors. Wi-Fi & Bluetooth Modules, MEMS, Sensors, Inductors [www.alpsalpine.com/e/](http://www.alpsalpine.com/e/)

SlimPort (MyDP) Transmitters and Receivers, SlimPort and Display Conversion Adapters, Display Translators (eDP, LVDS), LCD Timing Controllers (T-Con) [www.analogix.com](http://www.analogix.com)

Surface mount small signal and Schottky Diodes, Zeners, Rectifiers, Bridges, Transistors, SCR's, TRIAC's, and JFET's. Picomini and Ultramini SO-563 device family. Screened H & K Bare Die for Mil/Aero applications. [www.centalsemi.com](http://www.centalsemi.com)

DC/DC converters and open frame/desktop/wall wart & AC/DC power supplies. [www.cincon.com](http://www.cincon.com)

Wire and custom cable assemblies, overmold capabilities, and power cords  
[www.conwire.com](http://www.conwire.com)

EPC Space makes Rad-Hard GaN FETs for space applications. GaN FETs are 10x smaller and 30~40x faster than Si MOSFETs. [epc.space](http://epc.space)

CRYSTALS, OSCILLATORS and FILTERS, SMD and leaded crystals, oscillators and monolithic crystal filters. Ultra- Miniature and low-profile packages. SPXO, VCXO, TCXO, VCTCXO, TSX, MEMS Timing Products. [www.kds.info](http://www.kds.info)

LXD Research & Display designs and manufactures liquid crystal displays. Specializing in high reliability displays for hazardous environments, LXD products include: glass displays, modules displays, TFTs, OLEDs, and sunlight readable displays. Product lines include TN, STN, HTN, FSTN, CSTN, TFT and LCM. .

Microelectronic Components offering Trusted system-in-package solutions, high-density memory and secure SSDs optimized for the edge in Military & Aerospace applications. [www.mrcy.com/products/microelectronics](http://www.mrcy.com/products/microelectronics)

Surface mount and through-hole capacitors. Aluminum electrolytic, Aluminum polymer, Hybrid Polymer, DC Link, film capacitors and diode arrays. A full line of AECQ for EV's. [www.nichicon-us.com](http://www.nichicon-us.com). Additionally, Nichicon is the North American provider for Italy's ICEL Corp and their Box-type Film Capacitors used for DC-Link, Snubber, Motor Run & AC Filters

VPT Power is a leading provider of Hi-Rel power conversion solutions for avionics, military and aerospace, including DC-DC converters and EMI filters.
