

We Bridge Ideas to Solutions™

ALPSALPINE

Alps Alpine designs and manufactures a vast portfolio of high-precision electronic components, including magnetic, geomagnetic, humidity, and pressure sensors. Their expertise extends to HAPTIC™ reactors, actuators, and switches, serving the consumer, mobile, gaming, and industrial sectors. www.alpsalpine.com/e/

Analogix Semiconductor A leader in high-performance analog and mixed-signal semiconductors. Their product range includes DisplayPort and HDMI transmitters/receivers, USB Type-C port controllers, and LCD timing controllers (TCONs), enabling seamless high-definition audio and video connectivity for mobile, IT, and VR/AR applications www.analogix.com

Cincon Electronics A global provider of switch-mode power conversion solutions. Cincon specializes in high-efficiency DC-DC converters, AC-DC power supplies, and LED drivers designed for the communications, industrial, medical, and lighting industries. www.cincon.com

Consolidated Electronic Wire & Cable A U.S.-based manufacturer offering a comprehensive catalog of standard and custom electronic wires, cables, power cords, and molded cable assemblies. They provide critical wiring harnesses for aerospace, medical, automotive, and industrial automation. www.conwire.com

EPC · SPACE

EPC Space A U.S.-based leader in radiation-hardened gallium nitride (GaN) power management. Their GaN-on-Silicon solutions—including transistors, drivers, and integrated modules—are engineered for high-reliability performance in space and high-radiation environments. epc.space

Good-Ark Semiconductor A global manufacturer of discrete semiconductors specializing in diodes, rectifiers, MOSFETs, and circuit protection devices. Their surface-mount and wafer-level products emphasize energy sustainability and reliability for automotive, industrial, and renewable energy sectors. goodarksemi.com

KDS Daishinku Manufactures high-precision quartz crystal devices, including resonators, oscillators, and filters. These components provide critical timing and frequency control required for IoT, telecommunications, and automotive electronic systems. www.kds.info

LXD Research & Display Specializes in custom, high-reliability liquid crystal display (LCD) solutions. Their offerings include TFT, OLED, character, and graphic modules specifically ruggedized for industrial, aerospace, and harsh-environment applications. www.lxdinc.com

Mercury Systems A U.S.-based manufacturer of high-performance microelectronics. They specialize in system-in-package (SiP) modules and radiation-tolerant memory designed for rugged, low-latency edge computing in defense and aerospace. www.mrcy.com/products/microelectronics

Nichicon Corporation A global leader in capacitor technology, providing a diverse range of high-quality aluminum electrolytic, conductive polymer, hybrid, and film capacitors. They also offer specialized small Li-ion rechargeable batteries with a focus on zero-defect quality for automotive, IoT, and aerospace power paths. www.nichicon-us.com

Sensitron Semiconductor A U.S.-based manufacturer of high-reliability power electronics. Their product line includes power modules, motor controllers, and solid-state power controllers designed to meet the rigorous demands of the defense, space, and medical markets. www.sensitron.com

VPT Components A U.S.-based manufacturer of high-reliability discrete semiconductors. They offer a comprehensive portfolio of MIL-PRF-19500 qualified products—including JAN, JANTX, JANTXV, and JANS certified diodes, rectifiers, and transistors—specifically engineered for the most demanding military, aerospace, and space applications. www.vptcomponents.com

VPT Power A U.S.-based manufacturer providing high-reliability DC-DC converters, EMI filters, and accessory power products. Their solutions are purpose-built for the most demanding avionics and space applications, engineered to withstand severe vibration, shock, and radiation. www.vptpower.com
